* 12 month employees receive one additional vacation day.

**Work Year Calendar does not include longevity vacation days—check your individual contract.

***Upon vacancy of this position, the position will revert from 11 month status to 10 month status.

Note: Site Administrators are responsible to establish schedules that ensure the contract days listed on this calendar are worked. All employees are to work the full day according to their contract on minimum days. All employees except 9 and 9 ½ month employees are expected to work on snow days. For 2020/21, employees contracted for 202 days do not work 4/2, 4/23 and 5/21, in addition to winter and spring break and holidays as listed on the school calendar.

See reverse for information regarding:

- Calculating vacation days
- Calculating # of months an employee works
- Calculating longevity vacation days
- Calculating sick leave
- Summer Vacation and Sick Leave calculations

To calculate vacation days

| Work Days | divided by | Total Possible Work Days | = | Vacation Rate | multiply by | Possible Vacation Days | = | Vacation Days Allowed |
|-----------|---------------|--------------------------------|---|------------------|----------------|------------------------------|---|-----------------------------|
| 223 | / | 234 | = | 0.953 | x | 15 | = | 14 |
| 214 | / | 234 | = | 0.9145 | x | 15 | = | 14 |

To calculate how many months an employee works

| Total Contracted Days | divided by | Total Possible Work Days | = | Monthly Rate | multiply by | Possible Months in a Year | = | Month Employee |
|-----------------------------|---------------|--------------------------------|---|-----------------|----------------|---------------------------------|---|-------------------|
| 249 | / | 262 | = | 0.9504 | x | 12 | = | 11.5 |
| 239 | / | 262 | = | 0.9122 | x | 12 | = | 11 |

To calculate longevity vacation days

month employee x longevity rate = total vacation days, less 11 (base vacation days) = longevity days

Example: $9.5 \times 1.66 = 15.77$ (round to 16), minus 11 = 5 longevity days

| Longevity Rate: | 9 Mo Employees | 9.5 Mo Employees |
|-----------------|-------------------------|-------------------------|
| 13-15 Yrs 1.41 | 1.41 = 2 longevity days | 1.41 = 2 longevity days |
| 16-18 Yrs 1.66 | 1.66 = 4 longevity days | 1.66 = 5 longevity days |
| 19 + Yrs 1.83 | 1.83 = 5 longevity days | 1.83 = 6 longevity days |

Note: See CSEA contract for language effective 2004/05 regarding vacation accrual at 2.08 days

Sick leave

Full time (8 hour, 12 month) employees earn 96 hours of sick leave per year.

Sick leave for part-time employees is calculated as follows:

hours worked per day x number of months worked per year. (Minimum of 10 days per year)

Example: 6 hour employee working 9 months earns 60 hours of sick leave per year.

Summer Vacation and Sick Leave Calculation

Employees who are in paid status for more than one-half the working days in the month will earn vacation time for summer work.

Employees will earn additional sick time based on the calculation above for part-time employees for time worked during the summer.
